

Mr. Michael Racano  
Major Automotive Products, Inc.  
975 West Jericho Turnpike  
Smithtown, New York 11787

Dear Mr. Racano,

In addition to our letter pertaining to the economy of your product, Kleen Fuel, tested on our 85 truck feet, which reduced fuel consumption by 14 to 16%, we also have found a reduction of engine Oil usage, easier starting in extreme cold weather, reduction of emissions and life of spark plugs doubled.

After using your product, Kleen Fuel for almost a year, we tore down two engines of our 85 trucks used for the test to see the effects, if any, on our engines and found reductions in wear on pistons, piston rings, cylinder walls and valve guides by 50 to 60%.

We are happy to inform you that not only did our company save on our fuel bills by using Kleen Fuel, but our down time and maintenance costs were cut in half. In view of these findings, we will continue to use your' product.

Yours very truly,

William Holt  
Fleet Superintendent
